Doctor Seuss (苏斯博士) was born in 1904. By the middle 1950s, he had become one of the best loved and most successful children's book writers in the world. His books are very popular with young readers. They enjoy the invented words and the pictures of unusual funny animals and plants.

In 1954, Life magazine published a report about school children who could not read. The report said many children's books were not interesting. Doctor Seuss strongly hoped to help children and decided to write books that were interesting and easy to read. He used words with the same ending sound, like fish and wish. He did not receive training in art. Yet, he drew the pictures for most of his books.

In 1957, Dr. Seuss wrote The Cat in the Hat. He used less than 230 words to write the book and even a six-year-old could be able to read it. It was a funny story and easy to read. Children

loved it. Their parents loved it, too. Today it is still one of the stories they like best. The success of The Cat in the Hat made him want to write more books for children. In 1960, he wrote a book using less than fifty words. The book is called Green Eggs and Ham.

In 1984, Doctor Seuss won a Pulitzer Prize (普利策奖). He was honored for the education and enjoyment his books provided for American children and their parents.

He died at the age of 87, but his influence remains. Millions of his books have been sold worldwide. People say his books helped change the way American children learned to read. Most people want to be happy, but few know how to find happiness. Money and success alone do not bring lasting happiness. Aristotle, a Greek thinker, said, "Happiness depends upon ourselves." In other words, we make our own happiness. Here are a few suggestions to help you be happier.

The first secret of happiness is to enjoy the simple things in life. Too often, we spend so much time thinking about the future—for example, getting into college or getting a good job—that we fail to enjoy the present. You should enjoy life's simple pleasures, such as reading a good book, listening to your favourite music, or spending time with close friends. People who have several close friends often live happier and healthier lives.

Another secret to living a happy life is to be active, and have hobbies where you forget

your problems and time. Many people experience this when dancing, or playing a sport, such as swimming. You can forget about your problems, and only think about the activity.

Finally, many people find happiness in helping others. Studies show that people feel good when they spend their time helping others. If you want to feel happier, do good things for someone. You can help a friend with his or her studies, go shopping to buy food for an elderly person, or simply help out around the house by washing the dishes.

Dear Mum and Dad,

The time has come: I'm graduating, and I thank you both for all your help during these 15 years. I still remember when you used to say, "You can be whatever you want." I'm so glad you are my parents, especially when I hear kids say they don't get on well with theirs. I'm glad that you support me when I decide to do anything. You always try to help, and that's important to me.

Dad, I remember when you first took me to fish. I loved going even though I never caught anything. I also remember when you would get angry with me. I realize you were only trying to show me the right way. When I was crying, you would always be there to try to cheer me up. That's what I call a good, loving, caring dad, and that 's why I love you so much.

Mum, I enjoy going out with you and having our happy time every Friday night, and I hope that never changes. I love telling you everything. You always listen carefully and give me your opinions. You love to have fun, and Dad does, too. I'm glad we do a lot together.

Thank you for bringing me up.

Love

always

Going to school on foot is good for us. First of all, walking to school is a wonderful way to exercise and it's good for health. Next, it's fun to walk together with friends every day. We can talk about something interesting and know each other better. What's more, if we walk, our parents won't have to drive us to school. Thus there will be fewer cars in the city. More walking and less driving helps to make our city cleaner. The streets won't be as crowded as they are now. I hope more and more students will go to school on foot.
